Subject: blades
Attachments: Blades Results summary table.xlsx; PotMap_Zone_A.pdf; PotMap_Zone_B.pdf; PotMap_Zone_C.pdf; GW_Samp Loc_Map.pdf

Wells to Sample:

Three public wells and then TBW-1 as the associated deep well (hopefully...)

MWs – 1, 2, 3, 4, 5, 6, 7, 8, 13, 14, 15, and 19 (14 and 19 results were good for background shallow comparison and 8 and 13 results were good for intermediate background comparison)

Ex. 5 Deliberative Process (DP)

Attached is the full sample maps and the GW flow maps that [redacted] just sent me. though really for HRS purposes GW flow doesn't come into play toomuch.

Also attached are the data tables which I don't think you have seen yet.

None of this stuff has been through QA and as far as the data most is the preliminary unvalidated data.

I need to eat real quick. Can we talk about 130 and come up with a final list?? Maybe we can pare down some more.

It seems [Ex. 6 Personal Privacy (PP)] would be available next week – preferably Tuesday and Wednesday. One we talk I'll get the ARF submitted this afternoon.

And we can also talk about how this impacts the budget...
